Katwa & Kemboy Advocates

About Us

We have a broad and diverse client base we represent a wide range of public and private employers some clients are large multinational concerns with thousands of employees, others are smaller entrepreneurial businesses.

What distinguishes Katwa & Kemboy Advocates from many other law firms' sour businesslike approach to solving our clients' legal problems our attorneys are skilled advocates with substantial experience in successfully trying cases and arguing appeals and we recognize that the most aggressive and expensive litigation strategy may not always be the best solution to a client's problem. We also recognize that most clients would prefer to spend less money on legal services than spend more. In every matter we handle, therefore, we seek to identify the client's primary business objective, design a solution to fit that objective, and then implement that solution in the most efficient manner possible.
